CASE STUDY

LIFETIME COST OF LONGBOARD VS. WOOD

Longboard saves homeowners \$22,000 in lifetime maintenance, making Longboard Soffit over 60% less expensive to own. Compare the maintenance schedule below based on an average 4,000 ft² home.

ENVIRONMENT

Longboard SOFFIT

- SOLVENT FREE PROCESS
- NO HAZARDOUS AIR POLLUTANTS (HAPS) RELEASED DURING MANUFACTURING
- NO WASTE & RUN OFF DURING APPLICATION
- SPRAY BOOTH EXHAUST IS REUSEABLE
- 98% OF OVERSPRAY IS REUSEABLE
- COATING PROCESS* ALREADY EXCEEDS ENVIRONMENTAL CODES, WHILE PAINT STRUGGLES TO KEEP UP
- NON-COMBUSTABLE

WOOD (PAINT & STAIN)

- MATERIALS DEplete FORESTS
- FREQUENT MAINTENANCE RELEASES MORE CHEMICALS INTO THE ENVIRONMENT WITH EACH APPLICATION OF NEW PAINT/STAIN
- RECYCLED PAINTS LESS STABLE & DURABLE TO USE

WELCOME TO SUSTAINABLE BEAUTY that will leave an impression, without leaving a carbon footprint.

CREATED USING *Alluminate* POWDER COATING TECHNOLOGY

Longboard affords you the benefit of high-quality sustainability, while allowing you to rest easy knowing you've kept damaging byproducts like phosphates and TGIC* out of the environment.

ENJOY THE RICH TEXTURES OF WOOD GRAIN STYLE without negatively impacting our forests for the benefit of generations to come.

ENVIRONMENTAL BENEFITS

VOC FREE
(VOLATILE ORGANIC COMPOUNDS)

AAMA 2604 CERTIFIED

LEED QUALIFIED**

100% RECYCLABLE

*Our soffits utilize the *Alluminate* process. To learn more: maynecoatings.com/Process/Allumination.html
**For more details on LEED Qualification, ask your sales rep or visit cagbc.org/leed/what/index.php

INSTALLATION

AVOID THE SCRAP FACTOR. Perfectly consistent milling means no planner or chatter marks and no warped or twisted material. This, combined with no loose knots, minimizes waste, installation time and frustration. Additional time saving elements like the starter hook, "J" trims and fully integrated venting allow for effortless installations resulting in a clean and professional look.

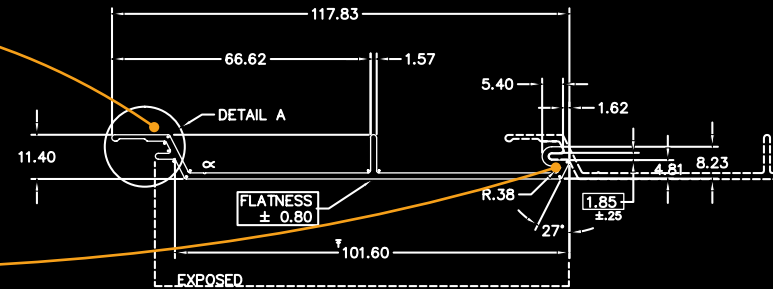

HIDDEN FASTENERS

- NO UNSIGHTLY NAIL MARKS
- NO FILLING OR TOUCH UPS

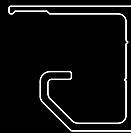

PERFECT JOINTS

- 1/16" SHIM ABILITY ON EVERY PIECE
- 1/8" EXPANSION/CONTRACTION AT 30°C TEMPERATURE CHANGE ON 12' LENGTH
- 12' STANDARD LENGTHS
- 24' LENGTHS AVAILABLE ON REQUEST

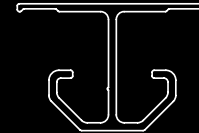

2 1/2", 4" AND 6" WIDTHS AVAILABLE

INTEGRATED VENTING SYSTEM

Single J

Double J
